

Growing Together

ANNUAL REPORT 2019

Ever since moving to bigger premises in September 2018, we have grown in terms of manpower and the programmes and services we offer. The one thread that remains the same in 2019 is our mission.

Mission

To strengthen family relationships in Singapore.

Vision

Through empowering families and individuals, we strive to build vibrant communities that can make a difference to society.

Reserve Policy

Morning Star Community Services aims to keep in reserves up to two times of total operating expenses. To ensure sustainability to fulfil its obligations and mission, the Board of Directors regularly reviews the financial status of Morning Star Community Services Ltd.

Growing with Your Support	29
----------------------------------	-----------

*Growing
Together*

in 2019!

Chairman's Message

There is much to be thankful for in 2019. This Annual Report vividly illustrates Morning Star's continued and continuing growth as it stands at the threshold of adulthood in 2020.

"The heartfelt testimonies of our clients and the eloquent pictures of our activities vividly illustrate how Morning Star continues to strengthen family relationships as it seeks to build vibrant communities in Singapore."

These are the fruits of our dedicated family of staff, associate counsellors and trainers. They are the caring faces and guiding hands of Morning Star to our many clients. Through the generous support of our supporters, stakeholders and partner organisations, Morning Star has been blessed to attract and, more importantly, to retain this talented family for whom the mission and vision of Morning Star is not so much work but a labour of love. The Board and Management are very grateful and proud of their efforts and achievements.

To support their efforts, it is vital that Morning Star's organisational and administrative framework are updated to provide robust yet cost effective solutions to both staff and clients. In 2019, the Family Wellness Division was formed in response to our growing training and counselling services. These services were pooled under one single administrative umbrella along with the work of our case manager under the leadership of a deputy director overseeing Morning Star's family wellness programmes. Where we can help, the case manager will ensure that the case is referred to the relevant service within Morning Star. Where the need falls outside the area of our work or expertise, our case manager would proactively direct the client to someone who can help.

The formation of the Family Wellness Division was also timely for another reason. In late 2019, Morning Star was privileged to be appointed by the Ministry of Social and Family Development as one of the ten regional Parenting Service Providers in Singapore. The pooled resources available

under the Family Wellness Division allayed initial concerns about the increased administrative load this new programme would bring. Morning Star was able to efficiently manage the paperwork with minimised cost increases. This also enabled the training department to focus on and deliver what they do best.

In terms of physical space, Morning Star has seen some modest but significant growth in its footprint. An agreement has been reached for Morning Star to provide CareNights at Agape Village. This has been long in the works, and we are all glad that it has come to fruition. We are looking forward to serving the residents and families in Toa Payoh, a district where Morning Star has not previously served.

In Sengkang, our After-School Care centre has completed its cyclical upgrading. With substantial improvements having been made, we believe our children can better thrive in a physical environment that is conducive towards their physical, intellectual and emotional development.

2019 has also seen substantial growth in the Board. Ms Elizabeth Sulistio and Ms Kit Tan have brought their substantial audit and human resource experience respectively along with fresh perspectives on improving Morning Star's existing practices and programmes. We look to invite others who share in Morning Star's vision and mission to join in our work. I am confident that we will see a couple more in the coming years.

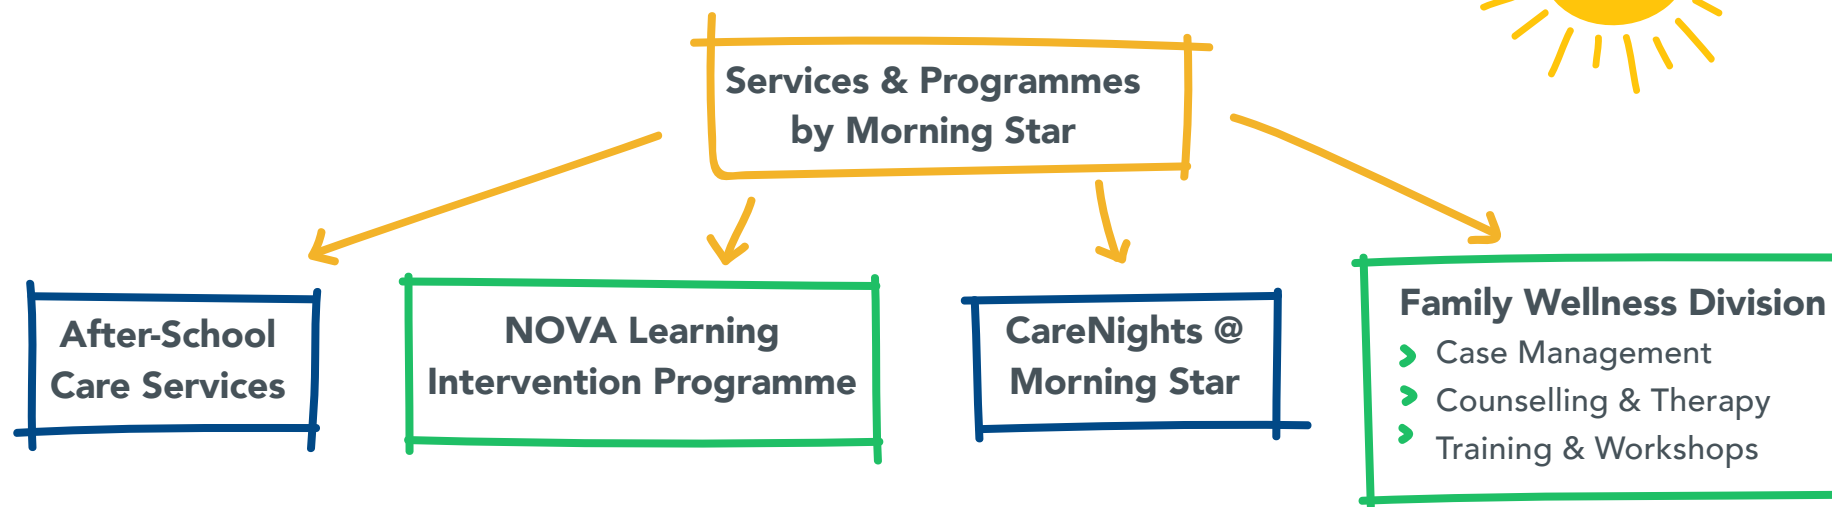

Finally, it leaves me to thank our numerous benefactors and supporters. The support, generosity and contributions of the Ministry of Social and Family Development, the Catholic Archdiocese, Caritas Singapore, the Canossian Sisters and the National Council of Social Service have been unstinting and impactful. With their continued support and the selfless dedication of our staff and volunteers, Morning Star confidently strives to realise our vision of a Singapore with stronger families and more vibrant communities. To God, who has sustained and continues to sustain our efforts, be all glory, honour and praise.

Mr Kelvin Poon

The Formation of Family Wellness Division

The **Family Wellness Division (FWD)** was formed in **March 2019** with the re-organisation of three departments:

- > **Training**
- > **Case Management**
- > **Counselling**

This merger allows for enhanced synergy across the three departments and improves the collaborative delivery of services to Morning Star's clients. In line with this formation, the FWD has developed a framework to ensure its clients receive better holistic support, as well as quicker link-ups with Morning Star's community partners.

The formation of the FWD also reflects the charity's growth, as Morning Star was appointed in November 2019 by the Ministry of Social and Family Development (MSF) as one of the ten regional Parenting Service Providers (PSP) in Singapore, serving 31 schools in the Bedok and Geylang Serai region. This endorsement by the MSF further strengthens Morning Star's capability and ability in delivering quality services to enrich and strengthen family relationships in Singapore.

Case Management

In an effort to ensure that holistic support is provided for clients within the community, Case Management services were re-introduced in February 2019. Since then till December 2019, a total of 60 cases have been referred, with 43 of them receiving active case management. Case Management services has pro-actively collaborated with schools, family service centres, government agencies such as the Ministry of Social and Family Development's Child Protective Service and other community services.

Case management responsibilities include:

- > Working with children enrolled in Morning Star's services and their immediate families
- > Conducting needs assessments to identify areas of risk and intervention needed
- > Coordinating referrals for internal services (e.g. child for play therapy or parents for coaching)
- > Linking families with community resources
- > Collaborating and coordinating with community services to provide holistic care for families in need
- > Engaging schools that children enrolled in Morning Star's services attend

Counselling & Therapy

New Developments on the Horizon

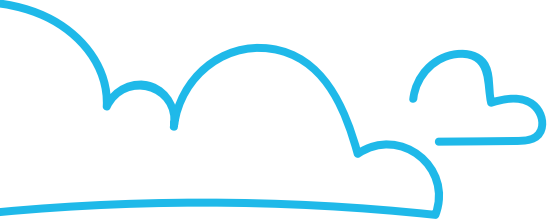

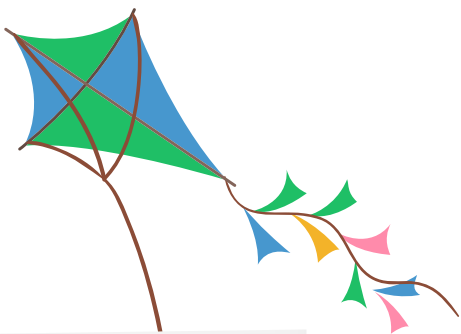

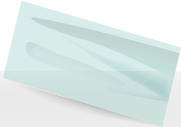

Theraplay® Training for Professionals

We successfully partnered with the Theraplay Institute® from the United States to train 38 counselling, psychology and social work professionals in parent-child attachment play therapy over two runs.

We piloted the use of Theraplay® for our clients for building and enhancing attachment, self-esteem, trust in others and joyful engagement. Theraplay has been accepted by the U.S. Substance Abuse and Mental Health Services Administration for inclusion on the National Registry for Evidence-based Programs and Practices.

Counselling Testimonials

"The Counsellor was gentle and firm, objective and very stable and calming to be with. She helped me be objective with myself and helped guide me to love myself authentically. Awesome!"

— **Melanie***

"I've worked with the Counsellor for a little over a year and I've grown leaps and bounds from the person I used to be. I've learnt to face my issues and also learnt how to navigate my feelings and how to love myself, and she helped me build a safe space to share my thoughts and emotions, plus some good tips to try at home."

— **Nura***

**Names have been changed for privacy*

Training & Workshops

It has been an incredible journey for the trainers of Morning Star! Since 2017, our trainers have been attending intensive training with expert The Incredible Years® (IY) trainer, Kimberlee Shoecraft, to be trained as Group Leaders in the IY Basic Parenting programme, the IY Parents and Babies programme and the IY Small Group Dinosaur (Treatment) programme. Positive outcomes were observed in the families we worked with in our public runs.

Programme	IY Basic Parenting		IY Parents & Babies		Small Group Dinosaur	
	Morning Star	Other Organisation	Morning Star	Other Organisation	Morning Star	Other Organisation
2017	10	15			3	22
2018	10	15	10	15		
2019	3	23	3	3	9	11
TOTAL	76		31		45	

IY Basic Parenting Workshop

The Incredible Years® Parent Programmes

In 2019, we conducted 7 runs of IY Parent Programmes. We clocked a total of 164 training hours, impacting 45 families. Our goal for 2020 is to start IY Small Group Dinosaur (Therapy) for children aged 5 to 8 years.

Roar with Dina Children's Programme

Roar with Dina, a holiday programme in September for children, was well-received. With two groups of children aged 5 to 7 and 8 to 11 years, the children had fun playing games while learning key social and emotional skills with Dina, the principal of Dinosaur School. Subsequent holiday programmes for 2020 will be planned.

Roar with Dina

IY Parents & Babies Workshop

Common Sense Parenting®

In 2019 alone, we conducted 126 training hours for Common Sense Parenting, impacting 130 families and volunteers. We managed to reach out to Mandarin-speaking families and aim to reach out to Malay-speaking families in 2020.

Triple P®

Positive Parenting Programme (Triple P) has different levels of programmes to meet the different learning needs of families. In 2019, 505 families attended our Level 2 seminar series, spending 30 hours with us to equip themselves with core parenting skills. 120 families benefited from our Triple P Level 3 one-to-one coaching, with our trainers spending a total of 460 hours with them in 2019. We were also heartened to have 18 families journeying with us through the Triple P Level 4 small group intervention programme, clocking a total of 48 hours.

Moving forward into 2020, we are the assigned Parent Service Provider for both primary and secondary schools in the Bedok and Geylang Serai region, providing evidence-based parenting programmes like Triple P, Signposts and other related services to 31 schools.

Signposts
for building better behaviour

Signposts

We were approached by MENDAKI to conduct a Signposts run for their beneficiaries. The parents found the sessions useful and plans are in place to conduct 6 more runs in 2020.

Growing with the Community

After-School Care Services

In 2019, Morning Star's After-School Care Services focused on equipping the children and facilitators with skills essential for thriving in the twenty-first century. The children were guided through a series of programmes to help build up their social-emotional regulation and cultivate mental resilience with a toolkit of lifeskills to overcome challenging circumstances, and were coached in coding, financial literacy skills and leading an active lifestyle.

Staff also went through training in engaging children with attention deficit hyperactivity disorder and autism spectrum disorder, using evidence-based practices to identify children's social-emotional learning needs to design, implement and evaluate programmes that suit the children's needs.

In appreciation of the facilitators' hard work, After-School Care Services also organised a day trip to Johor Bahru to rest and rejuvenate on Teachers' Day.

Total Enrichment Hours	1,811 43% increase from 2018
Children Enrolled	419 24% increase from 2019
SCFA Clients Engaged	77 20% increase from 2019

8. River Safari

NOVA Learning Intervention Programme

NOVA Learning Intervention Programme, launched in 2006, is a school-based programme that provides support to mainstream Primary 1 and 2 children with Social-Emotional Learning (SEL) difficulties— a service gap which was lacking in the community. NOVA is an early intervention programme which adopts a preventive rather than remedial approach.

Children are referred to NOVA by their school's Form Teachers after they have been observed struggling with social-emotional issues due to stressful personal or family situations which they find difficult to cope with or do not comprehend. These children are unable to adequately follow classroom teachings in school and exhibit weak social interaction skills such as:

- Low self-esteem and low self-confidence
- Difficulty managing anger
- Risk of adopting anti-social behaviours and becoming vulnerable to negative peer influence
- Risk of being the negative influencer (not just the victim)

NOVA's Approach

NOVA adopts the CASEL (Collaborative for Academic, Social, and Emotional Learning) research-based intervention which shows a strong link between SEL and children outcomes in the areas of mental well-being, character development, learning motivation, school success and responsible citizenship. NOVA adopts a small ratio of 2 SEL Facilitators : 16 children in each NOVA Learning Lab for closer interactions with the children.

- Social-Emotional skills taught through **Routine, Modelling and Coaching**
- **Circle Time** guides children through the steps to help them apply skills in new situations
- **Special Time** builds rapport with children through 1-1 child-directed play
- Children can learn cooperation and teamwork through participation in team sports and games during **Coach Play**
- **Sensory Play** helps children regulate their emotions better
- **Praise Time** affirms children's strengths and builds up self-confidence
- **Progress Update Sessions** and **Home Visits** foster a collaborative relationship with parents and empower them with skills to support their children at home

In 2019,

38 children enrolled in NOVA

8 children graduated from NOVA

87%

of the children improved in their Social-Emotional Behavioural scores

71%

of the children's parents reported improved ability in managing their children with the support of the NOVA Facilitators

With mutual respect and agreement, NOVA has ceased in St. Anthony's Canossian Primary School with the school implementing a new care plan for their students. The last day of operations was 13 December 2019 and a farewell party was organised for the children.

Success Stories

"My child and family have gained a strong family bonding through the NOVA programme. My child has also stopped using vulgarities and has somehow learnt how to show respect towards the elders. Our relationship has been improving since he enrolled in NOVA. The NOVA Facilitators were very helpful and cooperative in helping me by sharing different strategies in communicating and coping with my anger when dealing with my child. "

— **Ms Tan***, mother of a 10-year-old boy

John was referred by his Form Teacher to NOVA as he faced difficulty in managing his emotions and following instructions in class. He also had low self-esteem and had problems accepting negative feedback and failure. John would refuse to do any academic worksheets which were given to him by his teachers.

John responded well to NOVA's nurturing learning environment and routine daily interventions. After participating in the NOVA programme for one and a half years, John has learnt to identify and express his emotions in a more positive manner. As trust between the NOVA Facilitators and John developed, he showed increased willingness to seek help and attempted Math topics which he was weak in. John's self-esteem improved gradually, and he was able to accept corrections from his school teachers and the NOVA Facilitators. Feedback from his school teachers and family also validated the positive changes in him.

— **John***, 10-year-old boy

CareNights @ Morning Star

- > New enrolment increased by **73.5%** in 2019 compared to 2018
- > Greater wrap-around care through referrals and case management for more than **10** children

CareNights is a free evening support programme for children aged 6 to 14 years from 6pm to 10pm on weekdays. This pioneer initiative journeys with children to enhance their social and psychological development and support parents or caregivers who need to work overtime, shifts, attend evening courses or to family crises. With structure from a creative values and skills based curriculum, support from facilitators and volunteers, and social interaction, children are better able to regulate their emotions and strengthen their personal growth to become positive contributors to the community in future.

Through this programme, we have managed to break the adverse childhood experiences pattern and become the first line of intervention for children experiencing challenges that require professional assistance.
